Welcome Ray and Cressida Maloney 9-405

Ray and Criss, both from near St. Albans, Long Island, NY, met through a mutual friend at ages 15 and 18. Three years later they married during WWII. Ray enlisted in the Army and ended up as a fighter pilot flying P-47 Thunderbolt in Europe. On his 37th mission, he was shot down over northern Italy, parachuted out, was badly injured, and was captured by the enemy. He was taken

to Stalag Luft 3, a German POW camp in Sagan, East Germany where he was held for 6 months. He was freed by General Patton's advancing Army. He made it back to the States for hospitalization and remained in the Army and Air Force for another four years, then retired on disability from his war wounds.

Meanwhile Criss attended Hefley Business College and went to work for Elizabeth Arden Cosmetics, and at the same time volunteered for the Red Cross. Ray enrolled and graduated from Yale University. He was then employed for 33 years by Sikorsky Helicopters. Ray and Criss have three children, two daughters and a son, nine grandchildren and seven great grandchildren.

After retiring in CT, Ray, being a history buff, became interested in the mutiny of the British ship, Bounty. He spent years researching, both in the South Sea Islands, and in British and Australian libraries, hoping to write a book on the subject. But since there had been 2,500 already written on it, he decided to do illustrated presentations on the mutiny to friends. They proved successful, so Cunard and other cruise lines hired him as the historian for their South Pacific trips (seven in all). He received many awards-one he loves is a relic from the original ship Bounty in Pitcairn Island. Later he was the historian of the Bounty replica in the U.S.

Criss continued her volunteer work through the years, becoming volunteer of the year (2012) in Milford, CT, and also found time to enjoy golf, sailing, and painting. Ray found time to build a 24 ft. sailboat in his garage, and is now teaching himself to play the organ!

Director's Notes

I don't know if anyone else has noticed, but traffic is beginning to increase. That can only mean one thing, "Season" is here. Now is the time to make your plans for our lavish Thanksgiving Day Buffet. Since this is one of the Holidays where traditionally we have many friends and families visiting our area, we are offering two seatings, in order to accommodate as many people as possible. Since there are two seatings, one at 11:30 am and one at 2:00 pm, you may invite up to eight guests. Reservations open beginning November 1st.

With the influx of Holiday visitors who may not be aware of our dress code in the Colonnade Room, please inform your guests that, gentlemen must wear suits or sport coats with a dress shirt or sport shirt (no tee-shirts). By gentlemen, we mean any male 16 years or older. Ladies should wear dresses, skirts, pantsuits or slacks with a blouse (no tee shirts or halter tops). This dress code not only applies to Thanksgiving, but also to dinner and Sunday Brunch. It is up to you as the resident to inform your family and guests in advance of this dress code to avoid any embarrassment.

Another policy worth noting is our No Tipping policy. No employee should ever solicit or accept any type of gratuity for services rendered to our residents. The best way to show your appreciation for exemplary service is to make a contribution to the "Employee Appreciation Fund". This fund was established in lieu of giving gratuities to individual employees and is distributed to all employees based on years of service and hours worked on an annual basis. Be on the lookout for the annual solicitation letter from each of our Association President's, in which they offer a suggestion as to how much to contribute to ensure that each of our 112 employees receives a meaningful Holiday gift.

This year our "Gift" presentation will be held on Friday, December 9th at 2:30 pm in the Gathering Place at Tower Pointe. This is a really nice event and a great opportunity for our residents meet and greet the many employees that work behind the scenes to make everyone's life as pleasurable as possible. Not to mention seeing the big smiles on all of the employee's faces when they see the turnout and feel the warmth and appreciation given to them by the residents for the jobs they all do.

In closing, I would like to thank the many residents who donated to our Arbor Pointe Foundation Scholarship Fund over the past few months. Since announcing our four scholarship recipients for this academic year, we have received over \$16,000 in donations from our residents. A special thanks to the "stuff sale" volunteers who raised over \$1,500 for the scholarship fund. I do not know of any other community in Naples that does as much for their employees as our residents do.

Sincerely,

Dan Edenfield
Executive Director

Happy 25th Anniversary Arbor Trace!

Arbor Trace Travel Group

We had a great turnout for the October meeting, and now onward to November 2 at 10:30! Connie will be with us again and she'll deliver the documents to those going on the December cruise and introduce the representative from Preferred Travel who will accompany the group. She has safety tips for anyone traveling which she will pass out and review.

She will give details of the January Celebrity cruise to the Eastern Caribbean that I am going on, plus over 200 from the Naples area will be going too! And, it's a benefit for the Sunshine Kids. I would love to see some of your familiar Arbor Trace faces on that cruise.

Connie will bring flyers for all the 2017 trips Preferred Travel is hosting. And she will have details for the Tauck "Grand New England" trip I am taking next October. It's not too early to plan ahead to see fall foliage in all its glory. If you've never traveled with Tauck, they will exceed your expectations. This will be my 8th trip with them.

Last but not least, I went alone to Asheville, NC in early October and I'm going to give a quick highlight of just some of all there is to do there. And I will bring the paperweight I made at the Asheville Glass Center.

Believe it or not, these cheerful Arbor Glen ladies are lowering their blood pressure with their beautiful smiles!

"A Merry Heart is Like Good Medicine"...The Mantra of Arbor Glen

"A merry heart is like good medicine..." Proverbs 17:22

Current scientific research shows that a positive outlook on life can benefit physical health. And, as the selection from Proverbs indicates, the ancients knew that truth as well. Although they could not do it then, we are able to prove now that there is a relationship between the condition of the mind/heart/spirit and the physical body. Being cheerful, laughing, enjoying life are all necessary elements in relieving stress, relaxing muscles, increasing immune cells and infection fighting antibodies, lowering blood pressure...and much more. So, in order to inspire good health and a feeling of well-being, the residents of Arbor Glen are encouraged every day, by the staff and each other, to laugh, smile and enjoy. Not a day goes by that one doesn't hear laughter or witness a kind gesture. Life in Arbor Glen is "positively" nicely-lived through the medical support of staff to residents, but also by the many means in which residents raise the spirits of each other and, thereby, nurture a 2nd-floor community of many "merry hearts". So, if you are not feeling well, or would like to lower your blood pressure a bit, come and visit a friend in Arbor Glen. Plan to feel like you took some really "good medicine".

Elegy for Arbor Trace

By Ruth E Pattrin

Arbor has blooms
by old hedgerows and bushes
seemingly everlasting
colors of the sky at sundown
and transparencies of afternoon
dreaming by pool
near gardens edge

earth scattering
over Arbor's paths
coming from faraway
sands from Vanderbilt beach
red the sea
red grains from shore
rainbows shipwretched faraway

nature bringing us flowers, trees and earth
keeping them fresh and pure
rain pouring over and over
sweet, clear, mild and friendly
relics of ancient rains
waters kept for me, for you, for all of us.

Arbor Trace Butterflies

Have you been to the atrium garden lately? The monarch butterflies have arrived, and have layed their eggs. Before long little caterpillars will begin devouring the leaves of the milk weed and growing into plump black and white worms. When the caterpillars are full grown they will hang upside down and spin a chrysalis around their bodies. After a short waiting period, a full grown monarch will emerge and begin shaking its wings to loosen up after its confinement. The new butterfly is ready to begin the life cycle again.

Look at the windows and doors for an inch long light green bullet and you have found the chrysalis. Good Luck! -Sandy Bortz
