Jack and Nancy Nason T-804
Jack was born in 1937 in suburban Philadelphia. He received a BS from Penn State in mechanical engineering and an MS from Rensselaer Polytechnic. He worked for United Tech Corp in Hartford, CT for 38 years. His fascinating work was on life support systems for subs, aircraft, and spacecraft. They made space suits that went to the moon! An ardent boater, he is a member of Power Squadron and taught navigation and corrected exams.

Nancy comes from Holyoke, MA. She received her BS in math from the University of MA and her MS in computer science from Rensselaer. She was a high school math teacher and stay at home mom and then went into the information technology field...for over 50 years...developing software applications, e.g., inventory control, AARP's auto quoting system.

Jack and Nancy knew each other for many years when earlier spouses were alive. They both lived in Enfield, CT and were in the same social group. They reconnected and are now together 16 years. He had two daughters but sadly, lost one. She has a son and a daughter. They were ardent summer boaters and winter skiers. They chose Naples when retired. They had a large boat in CT but smaller here, 27 ft. feet. They first rented in Mariners Cove and then bought at the Isles of Collier Preserves, living there for 7 years.

Nancy loves bridge and after playing with her briefly, I can attest to the fact that she is way beyond my league. She will surely join duplicate groups in the area. Jack says he is a party bridge player only. They both love all sort of party games such as Mexican Train. They made the usual inquiries into the plus 55 communities in the area and like many of us, made a spread sheet with the various advantages. WE WON! Many happy years here to this brilliant and interesting couple.

Sandy Anderson 9-305

Sandy was born, raised, and schooled in Lowell, MA. She graduated from the University of Massachusetts with a degree in Elementary Education, went on to Boston College Graduate School and then taught school for two years. Wanting to get out and see the world, Sandy decided to move to San Francisco where she became a flight attendant for World Airways, flying mostly to the Orient. Bangkok was her favorite venue. During this time, she married and had a son who is now a neurosurgeon here at NCH.

She left California and came to Naples forty-two years ago where her son graduated from Naples High School. This versatile lady then entered the real estate field, and became a real estate agent in Marco Island, then Travel Agent Manager, and finally, wanting to slow down, went with AAA as a travel agent. She retired in Naples some twenty-five years ago. Then, having some friends in The Villages, FL, she moved there, but after eight years moved back to Naples and Arbor Trace. Her long-time friend, Jenny Duffy, is here in the Tower.

Sandy is an absolutely fascinating lady. After meeting her, I felt I had known her all my life. She enjoys traveling, reading, and socializing. She is a Tom Brady fan and has now switched allegiance to Tampa Bay! Welcome Sandy, you're going to love it here.

Director's Notes:

It's that time of year to have your Air Conditioning serviced. Tower Pointe residents, we have a contract with Crowther Air Conditioning, who performs an annual inspection on all Tower Pointe A/C units. This inspection service is included in your quarterly condo fees. If their inspection turns up any problems with, you're A/C unit, they will provide you with a written report as to what work might need to be performed. You may use them for the repair or use another A/C contractor of your choosing. Crowther is scheduled to perform this service in late June. If you have a maintenance agreement with another A/C contractor and would like to opt out of this annual maintenance inspection, please let the Tower Pointe Concierge know.

Arbor Trace residents, I am sure that many of you already have existing service agreements with A/C contractors of your choosing. If you do not already have a relationship with an A/C contractor and you are in need of service, please call the Clubhouse receptionist for a referral. We have relationships with several reputable A/C contractors that we are comfortable recommending.

For the benefit of our newer residents, I would like to call to your attention that our website, www.arbortrace.com; it is a wealth of information. (You can explore the site to see what it's like to live in this beautiful community) Under the Events/News tab, you can view the monthly calendar of events and past issues of the newsletter. If you click on the Residents tab, you can check out the weekly menu for the Colonnade Room, as well as catch up on what you may have missed at the last condominium association meeting. In addition to the website, we also have our own in-house television channel 195, where you can view the weekly menus and special events at a glance.

In other news, here are some tips to Avoiding Telephone and Internet Scams: Older adults are increasingly the targets of scam artists on the telephone who use lies, deception, and fear tactics to convince the older adult to send them money or provide personal account information. The Do-Not-Call registry may reduce calls from telemarketers representing legitimate businesses; however, it will not stop criminal telemarketers from calling. If you get a phone call from someone claiming to be from the IRS, here's what you should do: If you know you owe taxes or you think you might owe taxes, hang up and call the IRS directly at **1-800-829-1040**. If you know you don't owe taxes you can report the incident to the Treasury Inspector General for Tax Administration at **1-800-366-4484**, you can also report the scam by going to www.irs.gov/uac/report-phishing, and or the FTC Complaint Assistant at ftccomplaintassistant.gov (IRS.gov) can give you more information on this subject. If Email scams related to the IRS come to you don't open any attachments or click on any links in the message. Instead, report it to treasury.gov/tigta and forward the e-mail to phishing@irs.gov.

In The Garden

One of the nicest parts of putting the atrium garden together has been the contributions that so many of our friends and neighbors have made from their garden that they have left behind from their previous home.

One that is showing off right now is a Desert Rose. Seven years ago Marion McKee gave me a small one and it has gone from one pot to another as it has gotten bigger. It is now so big and beautiful that it is in a very handsome large pot that was given by Newt Davis. Another small Desert Rose has arrived from Barbara Swidler, it has found a new home in a pretty pot given by Nancy Downey. It looks very happy. Take a walk through the garden to see these beautiful Florida gems. -Sandy Bortz

Hurricane Preparedness Seminar

Dan Summers, Director of Collier County Emergency Management will be here Wednesday, May 26th at 9am in the Gathering Place for our Hurricane Preparedness Seminar. This is the time of year to prepare for the upcoming Hurricane Season, to make sure you put a plan together. We are able to host the first 30 residents that sign up at the Clubhouse. After the seminar we will broadcast the seminar multiple times on Channel 195 for those that are unable to attend in person.

Ladies Luncheon

The long year of challenges, anxiety, and isolation has finally passed. Spring is in the air and everyone is eager to enjoy the company of good friends and neighbors again. It just so happens that the perfect occasion to do that is now being planned. This year's annual ladies luncheon "SPRING AROUND THE WORLD" will be held on Thursday, May 6th at 12:00pm in the Colonnade. Mark your calendars, sign up now with Cris in the Dining Room and be sure to invite and encourage new neighbors to join us for a pleasant afternoon. Perhaps some of the world travelers among us could share their memories of the exciting, exotic places and events you have experienced. Wear something from your travels or present a small souvenir with an interesting history. When making your reservation, choose your entree: either a Chicken Tostada or Quiche Lorraine. We look forward to making this a special day to reconnect with each other and enjoy the wonderful life we share at Arbor Trace. - Joanne Bellon

BOOK DISCUSSION NEWS: We are happy to announce that the book discussions will continue on through the summer! We normally don't meet between May and October but we're having too much fun to take a break. Now we need your help: do you have recommendations for good reads? Let Sandy Steinbach or Karen Sexton know. And, then, plan to join us on the 3rd Friday of each month, 1:00 on Tower Pointe's 17th floor. May discussion: Friday, May 21, we will discuss "The Boy in the Striped Pajamas" by John Boyne. See you then. -Karen Sexton

C.A.M's Corner:

We all love our pets and being a responsible pet owner is an integral part of being a pet owner and a good neighbor. Please be responsible and respectful to the community as a whole and clean up after your pets anywhere on the property. The dog run, located at the south end of the Tower Pointe property behind the maintenance shop is a great place to bring your dog to meet other puppy friends, and does have a pet waste station available. In an effort to keep all of Arbor Trace and Tower Pointe both visually appealing and pet friendly, please be certain to clean up after your pets at all times, in all areas.

Secondly, to keep on the unappealing topic of waste, there are things that absolutely should not be flushed down the commodes in your homes. It is important to know that when articles are flushed down your commode, they do not just "magically disappear". Our two pump facilities on site that remove the sewer waste from the community are constantly broken, clogged, or jammed due to articles of clothing, hand towels, and non-disposable wipes being flushed and sent into the communities waste pump stations. These materials do not just disappear, and cause major breakdowns in our pumps, which could obviously lead to an environmental disaster that no one would want to experience. Preventing breakdowns to this system, a system that we all want to work properly and not have to experience problems with, is another issue we can all take part in. Please refrain from flushing these types of clothing, towels, leak protection underwear, or non-flushable wipes down the commode.

Gene Von Arx Celebrates his 100th birthday!

Our very own Gene Von Arx celebrated his 100th birthday last month. We had a special party with his friends, family and loved ones around him. What a wonderful time we all had. Gene is a very special person and is loved by all. Happy Birthday Gene! -Cheryl Gregson

Best and Wisest Mom

Mom, I wish I had words to tell
 How much you mean to me.
 I am the person I am today,
 Because you let me be.
 Your unconditional love
 Made me happy, strong, secure.
 Your teaching and example
 Made me confident, mature.
 In all the world, there is no mother
 Better than my own.
 You're the best and wisest person, Mom
 I have ever known.
